10th Copper Mountain Conference on Multigrid Methods

April 1-6, 2001, Copper Mountain, Colorado, USA

ORGANIZED BY
University of Colorado and FRSC

IN COOPERATION WITH
SIAM

SPONSORED BY
DOE, NSF, IBM, and LLNL

Multigrid Tutorial

Sunday, April 1: a tutorial on basic multigrid and advanced methods, including nonlinear techniques, algebraic multigrid (AMG), adaptive refinement, cache-based schemes, and finite elements.

Special Sessions

The conference will feature special sessions, including one on Ocean, Climate, & Weather Modeling organized by Craig Douglas.

Student Support

Support is planned for students who submit qualifying papers.

DEADLINES

Student Papers:	January 12, 2001
Author Abstracts:	February 1, 2001
Early Registration:	February 1, 2001
Guaranteed Lodging:	March 1, 2001
